

SUPPORT BOTH YOUR IADA AND NADA POLITICAL ACTION COMMITTEES

With elections fast approaching, it is important that dealers' political action funds are properly funded to provide needed assistance in the elections. IADA continues to receive requests for campaign assistance from state and federal candidates.

This Bulletin was prepared to help explain the difference between our state political action committee (IADA's CAR of Illinois) and the national political action committee (NADA's PAC). It is important to identify the PAC's and support both before the upcoming elections.

CAR OF ILLINOIS (Committee of Automotive Retailers) -is IADA's state-wide political action committee which only supports candidates running for the Illinois House of Representatives, Illinois Senate and state wide offices such as the Governor, Secretary of State and Attorney General.

Since CAR is a state wide political action committee it cannot support any candidates running for a federal political office. **Corporate checks** are acceptable and all CAR funds collected are spent on candidates with no administrative fees allocated to IADA.

IADA is the franchised dealer's voice in Springfield on legislative and regulatory matters, a strong state political action committee, (CAR) is necessary to promote IADA's legislative program on behalf of Illinois' franchised dealers.

NADA PAC- is NADA's national political action committee and only supports candidates running for federal offices such as: United States Congress, United States Senate, etc.

NADA PAC is a national political action committee and may only contribute to federal candidates. Only **personal checks** are acceptable to federal political action committees and DEAL may not contribute to any state candidates.

NADA is the dealer voice on national legislative and regulatory matters and needs a strong national political action committee to further support for national issues affecting franchised dealers.

Each of these funds, **CAR at the state level** and **NADA PAC at the federal level**, plays an important role and is vitally important to promote dealer interest at both the state and national levels. The important factor is dealers need to support both CAR and NADA PAC to assist their Associations' legislative efforts!

Enclosed is a detailed list of all dealer members updating their status with these important PAC funds. Please review and if you have not contributed please do so today! For those dealers who have contributed your support is most appreciated!
